ANNEX

Statement by the Ministry of Foreign Affairs of the Islamic Republic of Iran on the military invasion of Grenada by the United States of America

By its flagrant military aggression on the territory of an independent State of the international body, the United States of America revealed once again to the world its aggressive and colonial character and proved that it has no respect for the independence and sovereignty of States as well as for international laws and norms and that it follows no logic but that of force.

The Islamic Republic of Iran supports the struggle of the people of Grenada and condemns the military aggression of the United States and calls on all the free peoples of the world to strongly resist expansionism by the Great Satan and its collaborators.
